When a merchant registers with Visa in order to accept Visa credit cards, they select a merchant category code (MCC). The MCC is based on the types of products or services that the merchant sells. When MB&T creates promotions, we group similar MCC's into categories. We make every effort to include all relevant MCCs into our promotions. However, even if a merchant appears to fit within a promotional category they may not have registered with an MCC included in the promotion. When this happens, purchases with that merchant won't qualify for the 3x rewards offer.
